

**Walk Behind  
Sand Cleaning Equipment**

**BARBER** SAND MAN

**BARBER** - the world's leading manufacturer of beach and sand cleaning equipment introduces the newest addition to its product line . . . **The Barber SAND MAN.**

**The Barber SAND MAN** is a self-propelled, walk-behind beach and sand cleaner that utilizes a sifting screen to process sand and remove unwanted debris.

Its compact size and high flotation tires make it easily maneuverable and capable of operating in a variety of sand cleaning conditions. Maneuverability is aided by independent brakes on each wheel and a differential lock assists in soft sand conditions. The large footprint of the high flotation rubber tires allows it to be transported over delicate surfaces, such as manicured grasses, with minimal disturbance.

**The SAND MAN** is powered by a reliable air-cooled HONDA 5.5hp gasoline engine. An oil bath air cleaner assists in preserving engine air refinement and the entire frame is Hot Dip Galvanized for increased corrosion resistance in the salt and sand environment.

## HOW IT WORKS

**The SAND MAN** elevates the sand and utilizes a vibrating Hot Dip Galvanized steel **Screen** to separate the debris. The debris is then deposited into a collecting bin located at the rear of the screen. The bin is easily removed for unloading, with additional storage available at the back of the SAND MAN in the form of two (2) collecting bins.

Each machine includes three (3) interchangeable screens with varying mesh sizes of 3/16", 3/8" and 9/16". The smaller mesh is used for ultra fine cleaning and the large mesh allows for faster and deeper cleaning, particularly in wet sand. Additional sifting screens in larger and smaller than standard mesh sizes are also available. By using an easily accessible hand wheel, the depth of cleaning can be adjusted from 0-4" by the operator at anytime, including when the machine is in use.

## OPTIONS

The **SAND MAN** is light weight and compact enough to be transported in the bed of a pick up truck for work at various site locations. An optional rubber **Transport Wheel** can be permanently mounted on the front of the SAND MAN to allow for faster and easier transportation of the machine to sites within walking distances - over sidewalks, paths and parking lots.

An optional detachable **Riding Seat** allows for faster and easier transportation of the operator to and from job site locations.

Another available option is a three (3) foot wide **Plow** that mounts on the front of the machine and is used for relocation and contouring of sand areas.

**Seat**

**Transport Wheel**

**Front Plow**

## OPERATING FEATURES

**Debris Removed:** Broken glass, plastic, cigarette ends, pop-tops, straws, shells, stones, small pieces of wood, etc.

**Applications:** Any sandy surface including beaches, volleyball courts, golf course bunkers, horse or riding arenas and playgrounds.

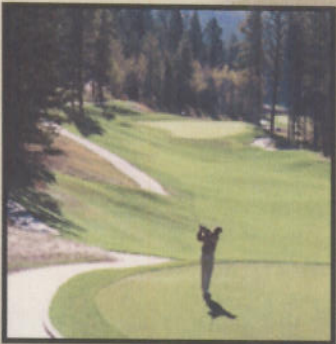

## SPECIFICATIONS

<b>Length:</b>	102in / 258cm	<b>Screen Opening:</b>	3/16, 3/8, 9/16in / 5,9,15mm
<b>Width:</b>	34in / 86cm	<b>Collector Volume:</b>	5.3gal / 20ltr
<b>Height:</b>	42in / 107cm	<b>Total Collectors:</b>	14gal / 54ltr / 1.9cu.ft.
<b>Weight:</b>	617lbs / 280kg	<b>Gasoline Engine:</b>	4 Stroke HONDA 5.5hp
<b>Working Width:</b>	33in / 85cm	<b>Drive System:</b>	2 Speed Direct Gear Drive (differential lock incl.)
<b>Working Depth:</b>	0-4in / 0-10cm	<b>Ground Clearance:</b>	4in / 10cm
<b>Working Speed:</b>	1.1 - 3.4mph / 1.8 - 5.5kph	<b>Tires:</b>	23" x 10.5-12" NHS Flotation
<b>Area Cleaned:</b>	15,000 to 35,000 sq.ft per hour / 1400-3200 sq.meter per hour		
<b>Warranty:</b>	H. Barber & Sons, Inc. warrants the SAND MAN to be free from defects in parts and workmanship for a period of one (1) year or 500 hours, whichever occurs first.		

*The World Leader in Tine  
Raking Cleaning Equipment.*

**Litter collection machines for both paved surfaces and grass areas.  
Truck towed and tractor towed models for all applications.**

**Stone pickers that remove debris and level work area in one pass.  
A variety of models for different size jobs.**

**World leader in beach cleaning equipment for more than 35 years.  
Models for all beaches and conditions.**
